DIGITAL ASSIGNMENT- 1

Last Date : 05.05.2023

Problem 1: Counting the number of occurrences of each word in a collection of documents

Problem 2: Counting the number of occurrences of words having the same size, or the same number of letters, in a collection of documents

Problem 3: Counting the number of occurrences of anagrams in a collection of documents. Anagrams are words with the same set of letters but in a different order (e.g., the words "listen" and "silent").
